

# Follow the course set by the Creator

By Maulana Wahiduddin Khan

There are countless stars and asteroids in the universe. All of these are incessantly rotating in the vastness of space. Space is like a limitless runway for the movement at great speed of these countless orbiting bodies. But what is most amazing is that neither the planets nor the stars ever collide in their course.

What is the secret? The secret lies in their rotation within their own orbits with the utmost precision and without the slightest deviation. It is this law of motion, which has prevented the heavenly bodies from colliding.

Exactly the same course is desirable for human beings. For the human course too, God has set a fixed sphere within the limits of which every human being has to move. If everyone moves in his respective sphere, a state of peace is automatically established in society. But when people cross their limits, and break the barriers set for them, society will witness clashes and confrontations. Those who deliberately or even unthinkingly collide with other people will not only invite their own destruction but will also destroy others.

How must man live in social life? How should he deal with others? What should be his behaviour? What norms should he follow in his sayings and deeds? For all this, God has given clear commands. He has explained what man should do and what he should not do. In life's daily affairs opting for the course permitted by God is like the stars moving in the orbits fixed for them. On the other hand, indulgence in forbidden things is like deviation from the fixed sphere.

The true believer is one who leads his life in the sphere appointed for him by God. It is those who unswervingly pursue the course set for them by their Creator, will share God's blessings in this world as well as His eternal blessings in the Hereafter.
